

# NFT ROYAL TOKEN

# ROAR LOUD AND BE KING

with DeFi's **INNOVATIVE** multifunctional ecosystem  
of possibilities and applications...

## ROYAL TOKEN

# DISCOVER NFT ROYAL TOKEN

NFT-Royal Token is the official cryptocurrency of a comprehensive ecosystem that increases your business opportunities and profits because it allows you to participate in different projects, according to your interests.

**NFT ROYAL**  
**TOKEN**

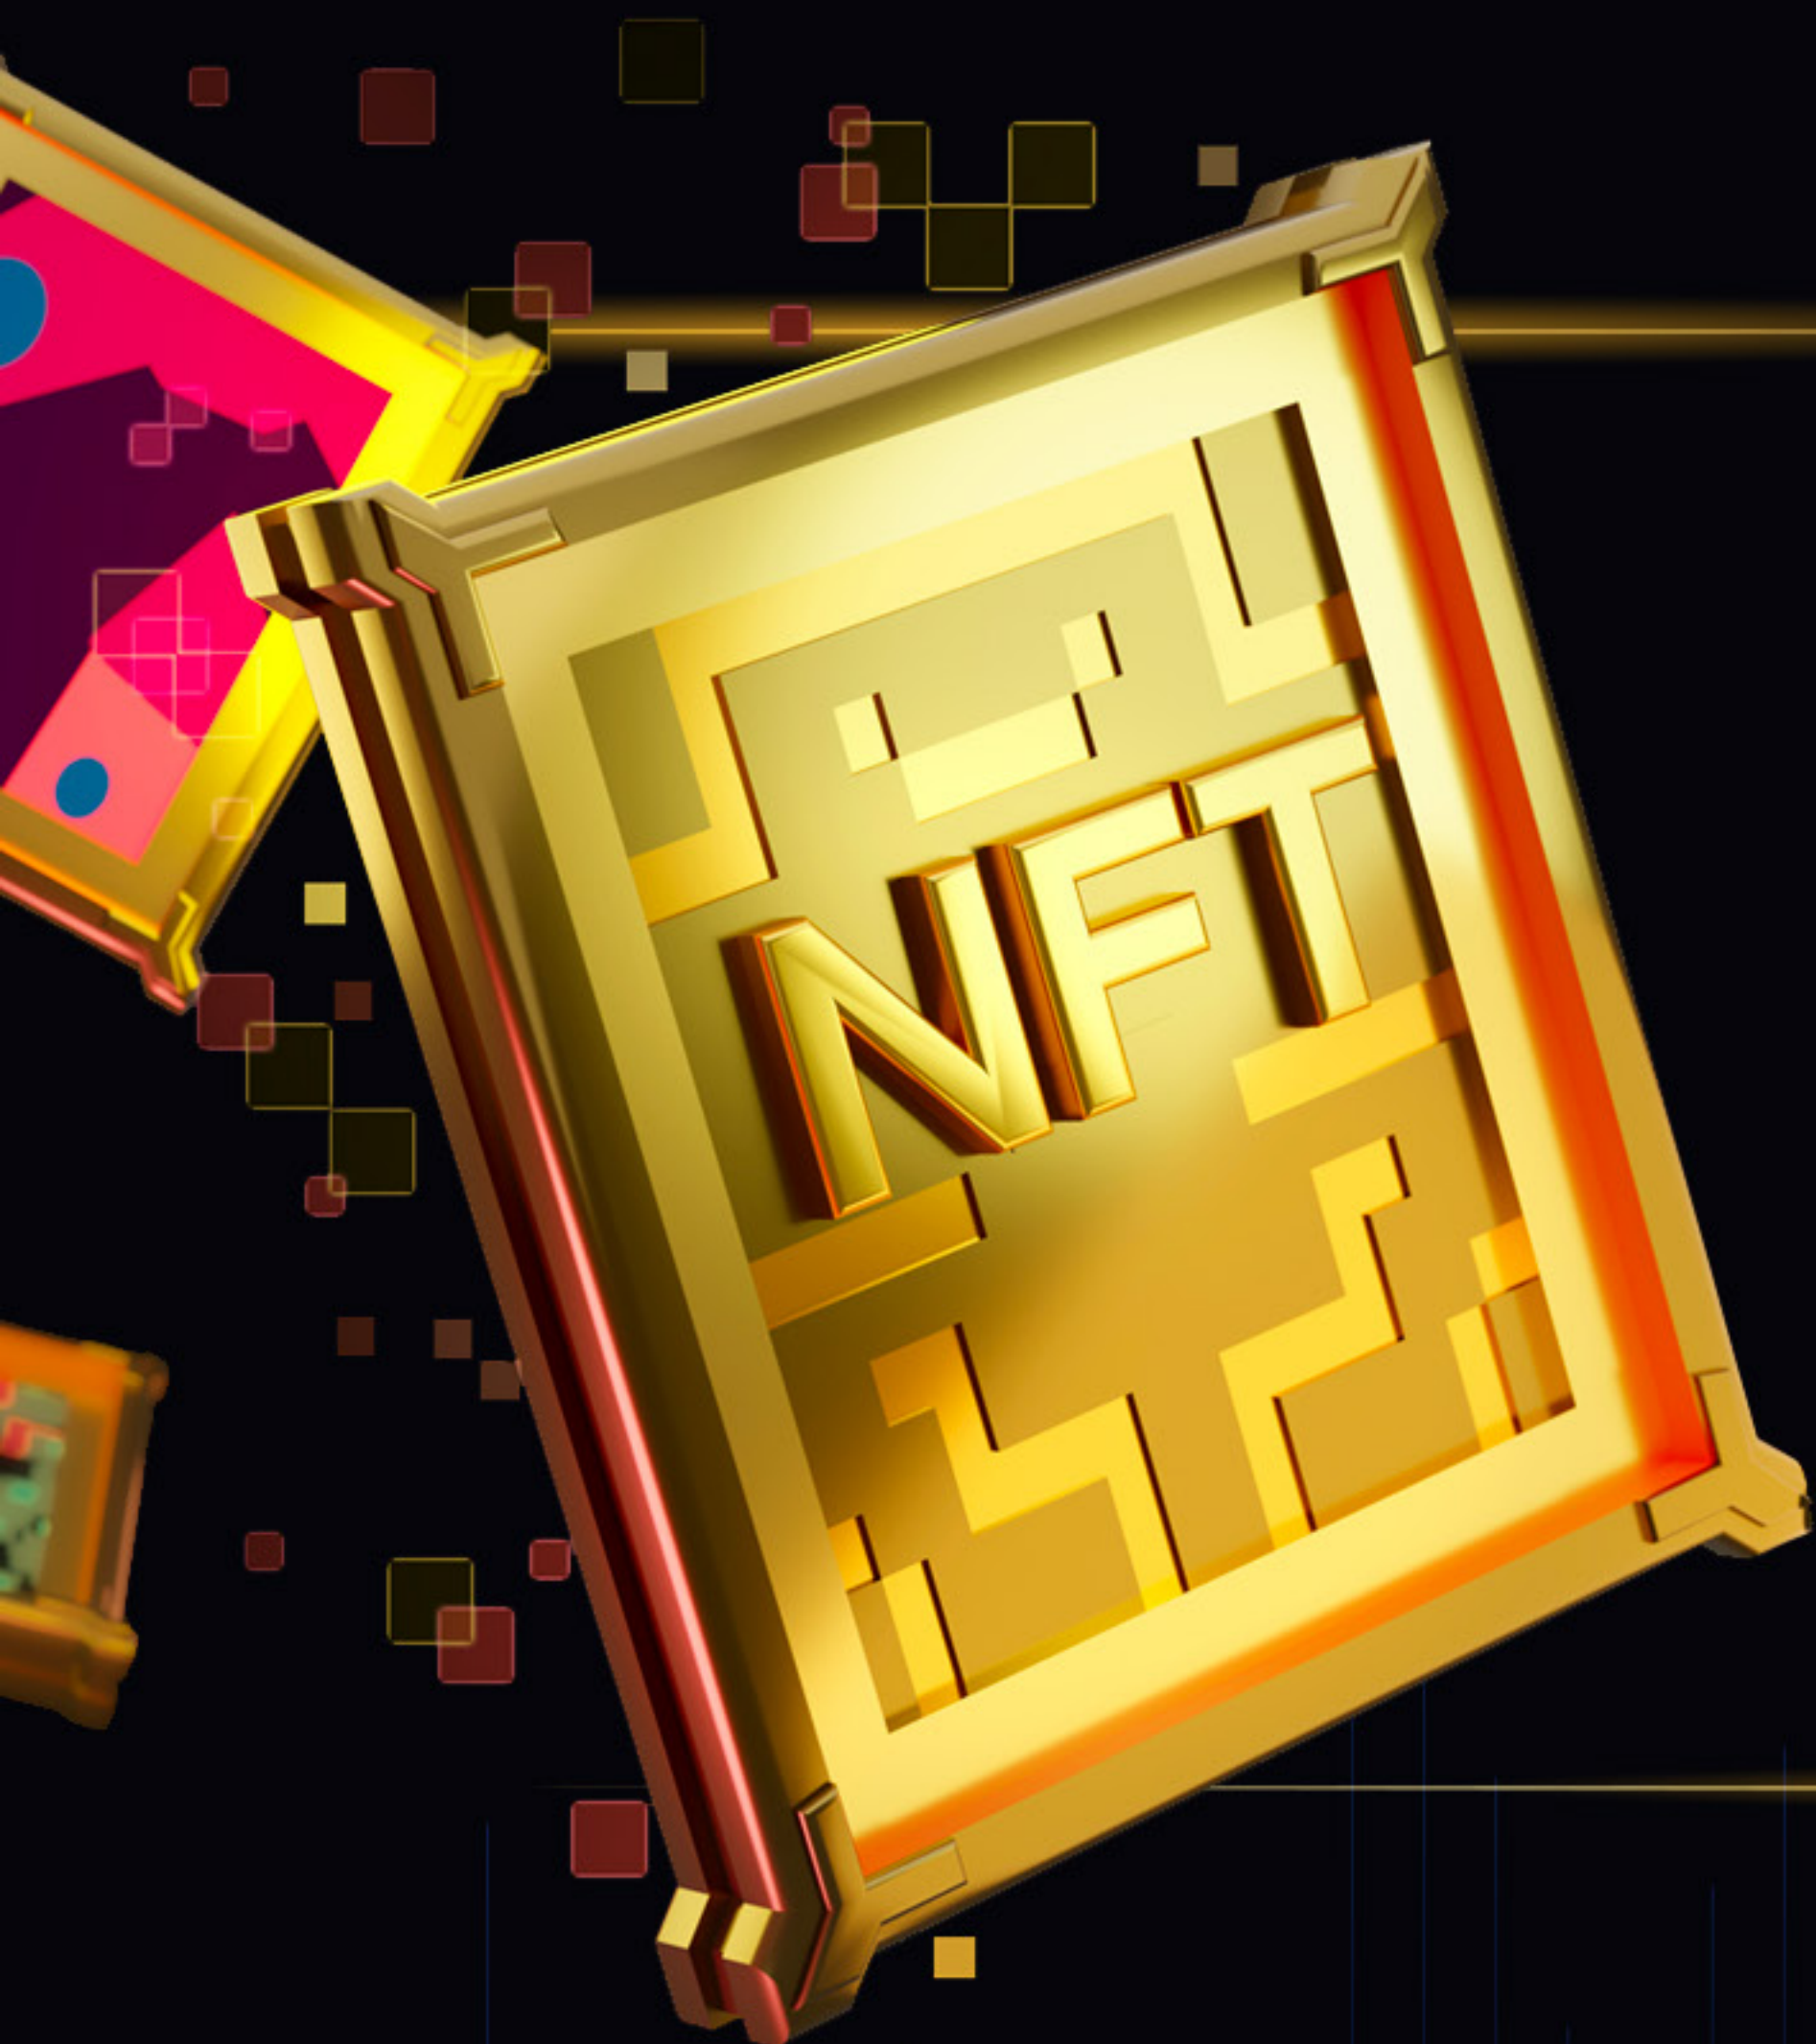

This ecosystem is built on **Binance Smart Chain's BlockChain (BSC)**, a modern development that offers you a variety of benefits thanks to its state-of-the-art technology. Its advantages include:

- ◆ Its double chain allows fast and simultaneous transactions.
- ◆ Supports EVM
- ◆ Support for ERC-20 and BEP-20 tokens.
- ◆ Compatible with different business models
- ◆ Low-cost operations
- ◆ Fast transaction verification

# NFT- ROYAL TOKEN IS SUPPORTED BY PANCAKE SWAP

**PancakeSwap and BakerySwap** are leaders among DeFi, thanks to the volume of transactions they enable in the world of decentralized finance. Both have liquidity for Binance Coin (BNB), BUSD and several other tokens, because they can be deposited in their own farms. Its benefits include:

It is continually updated.

It uses an automatic model, called Automated Market Maker (AMM).

You trade with a liquidity reserve, known as a liquidity pool.

Allows you to trade BEP-20 tokens, provide liquidity or earn several rewards.

**NFT ROYAL  
TOKEN**

And if that isn't enough, you can enable a wider range of functions, you can activate the option: **Unlock Wallet** and take full advantage of other options offered by our intelligent ecosystem. These are a brief sample:

- ◆ METAMASK
- ◆ Trust Wallet
- ◆ Wallet Connect
- ◆ Token Pocket
- ◆ Binance Dex
