- ◆ Coingecko
- ◆ Coinmarketcap

**Royal Profits is part of Royal Token, an integral ecosystem created on the Binance Smart Chain (BSC) BlockChain;** a state-of-the-art development that offers you several benefits thanks to its cutting-edge technology. Its advantages include:

- ◆ Its double chain allows for fast and simultaneous transactions.
- ◆ Support for ERC-20 and BEP 20 tokens.
- ◆ Compatible with different business models.
- ◆ Low-cost operations.
- ◆ Fast transaction verification.
- ◆ Allows immediate payments.
- ◆ Staking.

# NFT- ROYAL TOKEN WORKS WITH PANCAKE SWAP

**Pancake Swap** is one of the most popular DeFi protocols, thanks to the volume of transactions it allows in the world of decentralized finance with incredible benefits:

It's updated faster

It uses an automatic model, called Automated Market Maker (AMM).

You trade with a liquidity pool in pancake swap.

It allows you to trade BEP 20 tokens, provide liquidity or earn various rewards.

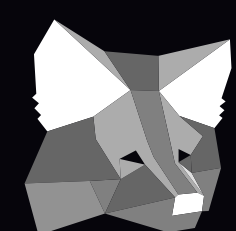

**NFT ROYAL**  
**PROFIT**
